

## PATENT COOPERATION TREATY

From the INTERNATIONAL BUREAU

PCT

NOTIFICATION CONCERNING  
TRANSMITTAL OF COPY OF INTERNATIONAL  
PRELIMINARY REPORT ON PATENTABILITY  
(CHAPTER I OF THE PATENT COOPERATION  
TREATY)  
(PCT Rule 44bis.1(c))

Date of mailing (day/month/year)  
17 August 2006 (17.08.2006)

Applicant's or agent's file reference  
414/04405

IMPORTANT NOTICE

To:  
FENSTER, Paul  
Fenster & Company, Intellectual Property LTD.  
P.O. Box 10256  
49002 Petach Tikva  
ISRAEL

International application No.  
PCT/IL2005/000141

International filing date (day/month/year)  
04 February 2005 (04.02.2005)

Priority date (day/month/year)  
05 February 2004 (05.02.2004)

Applicant

MOTORIKA INC. et al

The International Bureau transmits herewith a copy of the international preliminary report on patentability (Chapter I of the Patent Cooperation Treaty)

Simin Baharlu

Authorized officer

## 2. FURTHER ACTION

If a demand for international preliminary examination is made, this opinion will be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA") except that this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of 3 months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

3. For further details, see notes to Form PCT/ISA/220.

---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------	-------------------------------------------------------------------

Box No. I Basis of this opinion

1. With regard to the language, this opinion has been established on the basis of: ☒ the international application in the language in which it was filed ☐ a translation of the international application into \_\_\_\_\_, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)).
2. With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
- a. type of material ☐ a sequence listing ☐ table(s) related to the sequence listing
- b. format of material ☐ on paper ☐ in electronic form
- c. time of filing/furnishing ☐ contained in the international application as filed. ☐ filed together with the international application in electronic form. ☐ furnished subsequently to this Authority for the purposes of search.

3. ☐ In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

4. Additional comments:

WRITTEN OPINION OF THE  
INTERNATIONAL SEARCHING AUTHORITY

Box No. V Reasoned statement under Rule 43 bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims 4-9	YES
	Claims 1-3 and 10-35	NO
Inventive step (IS)	Claims 4-9	YES
	Claims 1-3 and 10-35	NO
Industrial applicability (IA)	Claims 1-35	YES
	Claims NONE	NO

2. Citations and explanations:

Claims 1-3 and 10-35 lack novelty under PCT Article 33(2) as being anticipated by Dempster et al.

Claims 1-3 and 10-35 lack novelty under PCT Article 33(2) as being anticipated by Johnson et al.

Claims 4-9 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a method of rehabilitation including a first actuator, a second actuator, both actuators including a movement mechanism coupling the second actuator to the body to apply a different force at a specific point.

Claims 1-35 meet the criteria set out in PCT Article 33(4), and thus are industrial applicability because the subject matter claimed can be made or used in industry.
